## WYCHWOOD FOUNDATION PROPOSED BUILDING

## BRIEF SUMMARY OF PROJECT

*BEECHER ACOUSTICS is sponsoring the WYCHWOOD FOUNDATION which aims to provide residential accommodation and weekly activities for vulnerable adults. The Foundation will focus around the fine arts, classical music, painting and literature.*

*This project will initially entail a purpose-built 20 bedroom sheltered housing facility. Beecher Acoustics (\*) have raised £42,000 so far - this has enabled the trustees to submit a Planning Application to Oxford City Council (\*\*) and to start to seek charitable status, and It is expected that the building work will start to happen within the next three years.*

*Located near Shotover Hill on the edge of the city of Oxford, this property will have beautiful gardens next door to mature woodlands, giving opportunities for its residents to develop additional skills in horticulture.*

*The project aims to deliver personalised care within a committed Christian ethos.*

*How you can help? Are you interested to support the Wychwood Foundation with this project? If so, please introduce this project to your friends and contacts (\*\*\*). Beecher Acoustics (\*) is all about restoring and repairing instruments of the violin family to the very highest standard. We sell fine-toned instruments, and repair, restore and undertake tone-development, also on clients' existing instruments.. Please help us sell an increased number of instruments and accessories so as to help the ongoing funding of this charitable work.*

*Coupled with the proposed new-build, and integral to the development of the new Wychwood Foundation, is the sale of an existing 6 bedroomed house. We are urgently seeking someone for whom this would be an ideal home, and who would become partner with us in the development of the charity. This house will share the benefits of the 2 ¾ acres of adjoining garden. Please see photographs and more particulars below.*

---

*(\*) Footnote: More detailed information is available on our website [www.beecheracoustics.com](http://www.beecheracoustics.com)*

*With a shop / workshop located in the traditional twelfth century stone quarry that provided materials for building Oxford colleges, Beecher Acoustics offer a full range of violin-family instruments, starting with those at a modest price for children, as well as catering for serious students and professional musicians. We shall continue to provide bursaries and special discounts to many young and gifted players, as has been the backbone of our approach since our foundation in 1972.*

*Visits to Beecher Acoustics shop are by appointment please. Telephone 01865-762287.*

---

*(\*\*) Footnote: For full details see Oxford City Council Planning website <http://public.oxford.gov.uk/online-applications/> and insert reference 16/02549/FUL in search box*

---

*(\*\*\*) Footnote: If you are thinking of emailing this information to a number of contacts, we have been alerted that when one sends out an email to a very large number of recipients, there is a danger it will be treated as spam, so if you are likely to be sending it out to more than, say, 20 people, it would probably be advisable to do it in separate tranches of 20 or less.*

## WYCHWOOD FOUNDATION GARDEN

## **THE 6 BEDROOMED HOUSE, ADJOINING WYCHWOOD FOUNDATION GARDEN**

This is a 6-bedroomed family home, with two bathrooms. It has dining room, kitchen, utility room, sitting room with conservatory, study, and downstairs WC. It is set in a quiet cul-de-sac, and has a double garage as well as parking space for several cars on the driveway. It enjoys mature gardens. The asking price is £975,000. Anyone interested in being involved with the Wychwood Foundation, and wishing to purchase this house, please contact Jonathan Beecher (please see details below).
